

**St. Cecilia's Public School
Junior Wing, Vikaspuri
Co-Curricular Activities (Apr-May)
Baisakhi**

As it is the first celebration of the session, so it was done with a folk dance performance by prep class in a traditional Punjabi attire. They did craft related activities in their respective classes like colouring a Punjabi boy and girl, and even comb printing and pasting art out of Dhol.

Earth Day

It is a promise to keep our mother earth safe, neat and protected . Earth day is celebrated throughout the week from 17th April to 21st, with plantation of seeds for each class in pot and watering it daily, teaching them to conserve water, electricity, say no to plastic etc. through movies and explanations by teachers. Nursery and Prep wings showcase by dance and skits.

Welcome to the students

For the new academic session 2017-18, all the students were welcome with open arms, smiling faces and music. They were given visors as school incentive on the first day. They were all very happy to wear it on the first day.

Fruit Chart Party

Another party is on the way to make them aware of the importance of fruits and the benefit to health. The party will be organized by the teacher, where they will wear aprons, chefs caps and highlight the importance of fruits for the kids. Some fruits can be peeled and cut, but not before washing them.

Myself

Students of nursery and prep class were given stage exposure to talk about myself through the morning assembly activity. They were encouraged to be confident and loud on the stage and everyone enjoyed performing on the stage with a mike in their hands to speak. Pin up activity, mirror activity was done by the students to know and tell about their body parts and they felt happy in doing the same.

Western Dance

Students grove on English songs for a performance by all the Nursery students. 100% participation was noticed and they were happy to come in colourful casuals that day.

Lemonade Party

It was a party by the school, so the lemonade was on the house. They were very excited to see how lemons are cut, squeezed with sugar being stirred and finally served to them by their respective teachers. They all had two-three glasses of lemonade each and thoroughly enjoyed.
