

St. Cecilia's Public School Flower Show Primary Wing

Spring is the season of colourful, blooming flowers. The buzzing of bees and the chirping of birds make the surroundings more fresh, happy and lively. Keeping this in mind a “Flower Show” was organized by the primary wing to familiarize the students with the various flowers, ornamental and medicinal plants. Students participated enthusiastically giving information and absorbing the details. Students enjoyed going round and noting the names of different flowers. Overall it was an interesting and informative event.
