

St. Cecilia's Public School 'Safe Secure Fear free childhood'

An awareness workshop was conducted by school counselor Ms. Neha Vohra on Good-Bad touch as well as No-touch for children of class I-II to sensitize as well as aware the small children regarding the most burning social issue of Bad touch. The workshop was conducted on 24.11.17 for the students in the presence of their teachers and Primary wing Co-ordinators.

The school counselor in the workshop ensured that each and every child was informed regarding the difference between good touch and bad touch. The children were also encouraged to be vocal and unafraid in confiding about any unusual incident to their parents, teachers or grandparents.

The students were also taught some safety rules so that they feel secure and comforted. The teachers also enforced on the children, that they must be alert and attentive at all times. The workshop for the small children was very fruitful and necessary in the present scenario.
