

St. Cecilia's Public School Orientation Day

**“We should teach our children how to think, not what to think”
Sidney Sugarman**

On 26th March 2019, an orientation day programme was held at St. Cecilia's Public school.

This programme was organized to aware the parents of the primary wing (class V), who are soon going to be a part of the middle wing, about the new academic session.

Studies show, that when families are involved in the education of their children in positive ways, the children maximize on their untapped potentials and are more regular to school, to demonstrate positive attitude and behavior.

At Cecilia's we completely understand the importance of a child's growth and the sensitive role of parents along with teachers, wherein we foster your child's learning through joint efforts of parents, teachers and the school, where parents and teachers share responsibility.

Keeping this in mind, the co-ordinator of middle wing, Mrs. Arti Parab enlightened the gathering by walking through the vision and philosophy of the school. She began the programme with a beautiful quotation.

“The function of education is to teach one to think intensively and critically to build a better nation”.

She reflected the school motto which is : Education for knowledge, wisdom, character and courage.

Parents were told about the latest infrastructure like : smart Boards and projectors installed in the classroom. Madam coordinator described the 'Remodeled Assessment Structure' that will be followed in middle wing.

Alongwith academics she laid emphasis on Co-scholastic Activities, School clubs importance of newspaper reading, rules and regulations, CELA(Cambridge English Language Assessment Programme) and the difference it creates in the confidence and personality of our children.

We are all looking forward to the day when children will brighten up the school with their presence as they unpack their bags; decorate the classrooms with color and learn to survive in the outside world.
