

St. Cecilia's Public School (Science Debate and Seminar)

'Scientia club' of St. Cecilia's Public School organized 'Science Debate competition ,Science Seminar competition on May 4, May 5 and May 11, 2017 respectively .

Science Debate was organized for class IX. The topic for the debate was "Are social networking sites effective or just a sophisticated means for stalking people".

Students expressed their ideas in favour & against the motion of the above topic .

Students participated enthusiastically and expressed their views frankly considering the effect of social media in student life and society. Science seminar was organized for classes X and XII. The topic for seminar of class X was "Tablets Vs Textbooks". The topic for class XII was "Latest Scientific innovations".

Students expressed their ideas with the help of presentation on their respective topics. The participants spoke enthusiastically on the given topics and came up with their perspective regarding the same. They cited reasons and supported them with suitable examples from real life , to justify their stand. They got good exposure and gained confidence of public speaking.

Students were judged on the basis of content, presentation and oratory skills.

The judges were deeply engrossed in the ideas of the students. The audience to the show thoroughly enjoyed the event.

Madam Vice Principal appreciated the efforts the students. She acknowledge the fact that internet do give us knowledge it is wisdom which teaches us how wisely use the knowledge gained.
