

**St. Cecilia's Public School**  
**"Each Step takes one higher in the ladder"**

At the onset of the summer break 2019 for teaching faculty, an enriching and empowering workshop was conducted by resource person Ms. Vandan Tandon on 25.5.19 for teachers of classes I to XII. The objective of the interactive session was achieved effectively as the journey of a teacher to become a mentor for his/her students was elaborated by the speakers.

The changes in Sociology, the dilemmas and stress of modern childhood, the concerns of parents were taken up elaborately in the session. The teachers were encouraged to search for definite positive outcomes and solutions. The need of continuous and constant upgradation in teaching methodology , empathetic approach in handling sensitive students were talked about for bringing an internal change in the students.

The workshop was a wonderful eye opener as the teachers realized that they are indeed the torchbearers in the life of their students in the journey of education.
