Dear parent,

We feel very delighted to inform you that the school is introducing two new games in the school premises: Shooting and Archery. The purpose behind the same is to cater to the students' interests and to give them a platform to explore new avenues in terms of sports.

Since both the games have a worldwide fame as they come under the international arena, we would like to give their brief description.

## Shooting:

Being a subgenre of action games, shooting calls for energized and concentrated actions. It is conducted with the aid of a weapon – either a gun or any other long – ranged one. It basically focuses upon shooting the opponents without losing out on yourself and hence, proceeding with the set target/mission. Abhinav Bindra, Jitu Rai, Gagan Narang and Anjali Bhagwat are some of the Indian names who have made their mark in the same field. The game helps in developing concentration skills, along with the ability to see your goals with a clear vision.

This game is opened for the classes VIII to XII.

## Archery:

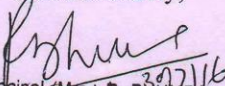

Archery is the concept of using arrows with a bow. In both hunting and military warfare, this skill has been of great significance. Deepika Kumari and Abhishek Verma are known as the champions of Indian archery. Similar to shooting, this game also strives to help its players in enhancing their concentration skills.

This game is opened for the classes VI to XII.

Trained coaches will be available in school for both the games. The trial classes for these will be conducted for the period of one month 25<sup>th</sup> July 2016 to 26<sup>th</sup> August 2016. It is ardently hoped that we would get to see the maximum participation from the student's side. At the same time, parents are also expected to encourage their children for the same so that the latter can derive maximum benefit from this wonderful opportunity.

Thanking you,

Yours sincerely,
