## English for your child

*Dear Parent,*

Learning English should be fun and stimulating for children. We hope you will find it interesting to watch your child grow in confidence, by learning more English and using what they have learned in real-life situations.

The *Cambridge English: Key for Schools* and *Cambridge English: Preliminary for Schools* tests are an excellent way of motivating children and showing how much progress they have made. Studying for these tests gives your child an advantage, as the tests provide a firm foundation for future study and career opportunities.

The tests are produced by Cambridge English Language Assessment, which is part of the world-famous University of Cambridge in the UK. We are an established global provider of English language exams, which means that you can have complete confidence in our tests.

### Continual progress

The tests are specially designed so that children can learn in a progressive way. *Cambridge English: Key for Schools* shows your child has mastered the basics in English. *Cambridge English: Preliminary for Schools* comes next and shows that children can use everyday English at an intermediate level, for social and study purposes.

### Real English

The focus of the tests is on practical English language skills, with content and topics targeted at the interests and experiences of school children. There are Reading and Writing, Listening, and Speaking papers, so your child is encouraged to use and speak English in the classroom and for everyday social activities.

### International standards

Both tests are taken by hundreds of thousands of children all over the world. You can be proud that your child has reached a standard which is recognised internationally.

The tests align to the Common European Framework of Reference for Languages (CEFR), the international standard for describing language ability. Successful candidates will receive a certificate from Cambridge English Language Assessment. This shows your child's progression clearly and will motivate them in future study of English. Cambridge English certificates are recognised by thousands of leading educational institutions and businesses worldwide.

*With best wishes,*
