Dear Parents,

Newspapers carry knowledge and information that is essential for the development of mind. It is imperative for us to enhance the reading skills of students so that their vocabulary, communication and language proficiency progresses to excellence.

Newspapers are specially designed to enrich the scientific temperament, logical reasoning, rational thinking, mathematical aptitude, etc. in the students from an early age. Therefore, students should avail the benefit of reading student edition newspaper every day. Parents are requested to encourage this habit in their wards by subscribing for newspaper.

This will also give an extra edge to the students as they will be entitled to attend workshops, seminars/ excursions or movies organized by them.
Kindly send ₹275/- by 16.07.2022 to the class teachers.
