

St. Cecilia's Public School

Cambridge English Qualifications for Young Learners

At St Cecilia's Public School, education extends beyond conventional classroom instruction to embrace globally benchmarked opportunities that cultivate competence, confidence, and communication. In an increasingly interconnected world, linguistic proficiency serves as an indispensable skill, empowering learners to navigate academic and professional landscapes with assurance. With this vision of academic enrichment and holistic language development, the school proudly offers the prestigious Cambridge English Qualifications for Young Learners programme.

An internationally recognised pathway to English language proficiency, Cambridge English Qualifications for Young Learners enable children across the globe to embark upon their English learning journey through structured milestones that progressively develop and validate their language skills.

St Cecilia's Public School takes immense pride in arranging this esteemed programme and offering students an exceptional international platform to refine and demonstrate their English proficiency.

Under the dynamic leadership and visionary guidance of Madam Principal, this initiative was introduced with the objective of broadening students' academic horizons and providing them access to internationally acclaimed language certifications.

The school offers Cambridge English levels including Starters, Movers, Flyers, KET, and PET, catering to students up to Class VIII.

To ensure the seamless execution of the programme and examinations, programme organisers regularly conduct parent orientation sessions and teacher training workshops, thereby fostering clarity, preparedness, and effective collaboration among all stakeholders.

In recognition of the school's exemplary commitment towards excellence in the Cambridge programme, St Cecilia's Public School was felicitated with the 'Emerging Star of the Year' Award at the Annual Coordinators' Conference held at The Park New Delhi. The school was also specially accoladed for serving as an examination centre.

Cecilians have consistently demonstrated outstanding performance in the Cambridge English examinations. In acknowledgement of their meritorious achievements, distinguished students are provided enriching educational exposure through visits to institutions such as the British Council Library, thereby nurturing a broader appreciation for language and learning.

The programme continues to run successfully, reflecting the school's steadfast commitment to empowering young learners with linguistic confidence, global competencies, and a lifelong love for learning.
