**Subject: Need for Offline Teaching Learning System for Classes IX to XII**

Dear Parents,

“Historically, pandemics have forced humans to break with the past and imagine their world anew. This one is no different. It is a portal, a gateway between one world and the next.”

Covid-19 has made its mark in history. Last one and a half years were replete with challenges and changes that are shaping the new world today. Steadily, each section of society is embracing this novel world to welcome the ‘new normal’.

Education system faced numerous trials too. We were compelled to shift from conventional to online mode of teaching as children’s growth should not have hampered. We received immense support from parents who stood steadfast with us to sail through the difficult times.

Also, the teaching fraternity of St. Cecilia’s had put their best foot forward to offer quality teaching-learning process for the welfare of students. Through illustrations, videos, power point presentations, online exams and celebration of marked days, all-round development of students was taken care of.

And yet, the fulfilment of the school motto: Education for Knowledge, Wisdom, Character and Courage – is our final goal for successful future of students. It is the progressive building up of these virtues that we strive to achieve through academics and co-curricular activities which is further, dependent on the conducive learning environment for young minds.

When students come to school, they communicate with their teachers and friends, engage in healthy discussions on matters of importance, stay in discipline and feel an obligation to complete their tasks on time. After a long hiatus, it is crucial that they are offered the platform, once again, to learn meaningfully and prepare themselves for the challenges of the demanding world. At school, they not only study from texts but also from their surroundings. This, eventually caters to their emotional and mental development too.

The need of the hour is also to bring back the excitement with which students would prepare for exams and feel determined to perform to the best of their potential in school. The zeal and energy of learning, researching, attempting varied questions to test their knowledge prepare themselves to tackle circumstantial difficulties with poise and maturity. When the world is moving towards the acceptance of new reality of the current time, education sector cannot lag behind. For the holistic approach towards enhancement of students’ personality, it is indispensable now that students are allowed to come out of the shell and expand their wings to aim for higher goals in life.

Therefore, keeping in mind the current Covid-19 controlled situation and the DOE circular that has allowed students of Classes 9<sup>th</sup> to 12<sup>th</sup> to study at school, we request all the parents to give consent for their wards to attend offline classes.

The school and parents should join hands in this venture for emotional, physical, mental and spiritual growth of children which has been affected due to the pandemic.

With regards,

Principal
