Stream selection after class X – Deciding on the path of success

On 22.01.22, the much needed and awaited session for students of Class X was conducted online on the digital platform of Google Meet to provide workable guidance to several students and parents who are not sure about the stream that should be taken after class 10th. Teachers of class XI and XII conducted an informative and path defining session that encouraged students to take apt stream selection decision.

The session was specially designed to help students who are currently in their 10th standard to make the decision about their careers going forward. Thus, in order to assist students in getting guidance from teachers and ensuring that these students make the best possible decisions, St Cecilia's Public School proudly presented an online webinar on varied topics.

The webinar was detailed and well formed on the basis of the questions posed by the students. Everyone has a dream, a career, which is rewarding and successful. But, how a career pans out depends on a lot on what stream students select after Class X. While most choices are stream neutral but the subjects one learns in school goes a long way.

The students were addressed by the expert team of senior teachers about how after class X, a maze of door opens. That means, students need to make informed choices not only about careers but the streams they wish

to undertake in the next two years. Keeping all arenas in view, Power-point presentations and videos led to a successful interactive session to apprise the students

It was also discussed how nowadays the conventional approach of taking up Science, Commerce or Humanities based on the percentage has been changed by the interest, the choice, the passion and the aptitude of the student.

The session addressed many questions asked by the students such as Which stream to choose after class 10th? And which stream is better for career? What are the Career options after class 10th? How to utilize two months in best possible way that students get after board exams? What are the career options in Commerce Stream? Apart from CA and CS, what are the other options?

So here are few of the questions that have been posed by varied students and answered by our valuable teachers. These questions not only helped students to solve their doubts and queries, but also acted as a guiding light to the parents of these students.

The Coordinator and the teachers wished all our valuable Cecilians 'All the Best' for their future happenings and decision making!!
