St. Cecilia's Public School
Dyslexia Awareness Month Celebration – October 2026
Organised by the Wellness Club

The Wellness Club celebrated Dyslexia Awareness Month throughout October with a series of engaging activities aimed at promoting awareness, empathy, acceptance and inclusion.

The celebration began with an awareness rally led by Class XII students, including students with special educational needs, highlighting the facts about dyslexia, addressing common myths and sharing inspiring examples of personalities who have spoken about their experiences with dyslexia.

A special awareness assembly for Classes VI–XII featured an impactful skit presented by senior students, depicting the everyday challenges faced by children with dyslexia and emphasising the importance of understanding rather than judging. The assembly encouraged young learners to reflect on their attitudes and become more supportive and inclusive towards their peers.

The celebrations further included a creatively designed awareness bulletin board and a Hand Painting Competition for Classes IX–XII on the theme “The Neurodiverse Brain – Every Mind Learns Differently.” Students of Classes VI–VIII also participated in an Art Corner – Bookmark Making Activity, expressing messages of encouragement, acceptance and inclusion through their creative designs.

The presence and encouragement of the respected Madam Principal on this occasion reinforced the importance of sensitivity and understanding towards children with diverse learning needs.

The month-long celebration witnessed enthusiastic student participation and meaningful reflections, strengthening the message that every child has unique abilities and deserves equal opportunities to learn, grow and succeed.

The Wellness Club continues to champion the belief: Every Mind Learns Differently, and Every Learner Deserves to Shine!
