

St. CECILIA'S PUBLIC SCHOOL
Flower Show
Eco Club
(Primary Wing)
Date: February 19, 2025 and February 20, 2025
Venue: School Premises

The Primary Eco Wing successfully organized a vibrant and informative flower show on February 19 and February 20, 2025 in the school premises. The event aimed to celebrate the beauty of nature and educate students about the diversity and importance of plants.

The flower show showcased the different variety of flowers, trees, and medicinal plants. During the flower show students from various classes actively participated in the event, they took the stage confidently, sharing insightful information about each plant, including its characteristics, uses, and significance. Their articulate presentations demonstrated not only their knowledge but also their passion for environmental conservation and botany.

During the flower show, students from all classes enthusiastically visited the exhibits, engaging in interactive discussions with their peers and teachers. The opportunity to learn about different plant species and their ecological roles sparked curiosity among the young minds.

In conclusion, the flower show was a resounding success, serving as a platform for students to foster a deeper understanding of the environment. The event not only showcased the beauty of flora but also instilled a sense of responsibility towards preserving and conserving our natural heritage for generations to come.
