Inter Class Bulletin Board Competition for Class V
Cyber Safety

Date of events	Class	Topic
31.01.2025	V	Cyber Safety

The primary objective of the interclass bulletin board competition was to enhance student's awareness about the importance of cyber safety. The competition aimed to educate students about online threats and the significance of safe internet practices while fostering creativity promoting teamwork and collaboration. Also enhancing student's creative skills by designing visually appealing bulletin boards.

The students used a variety of materials, including posters, drawings, printed articles, and digital elements to create their bulletin boards. They also included slogans, tips, and illustrations to convey their messages effectively.

Conclusion

The bulletin board competition on the topic of cyber safety was a resounding success. It achieved its objective of educating students about safe online practices while fostering creativity and teamwork. This competition has set a benchmark for future events, inspiring students to continue exploring important topics and presenting their ideas creatively.
