

**St. Cecilia's Public School  
Picnic - Visit to KidZania  
Classes - I to III**

On 03 February 2026, a joyful and enriching trip to KidZania was organized for the students of Classes I to III with the objective of blending fun with learning through real-life exposure in an engaging environment. The students were accompanied by their teachers and support staff, ensuring a safe and well-managed experience throughout the visit.

The day began with great excitement as the children entered KidZania, a child-sized city thoughtfully designed to offer hands-on learning experiences. The students enthusiastically participated in various role-play activities, taking on the roles of doctors, firefighters, chefs, pilots, porters, and police officers. These activities provided valuable insights into different professions while nurturing teamwork, confidence, responsibility, and decision-making skills among the children.

A lunch break was organized during which the students happily shared their meals, interacted with their peers, and demonstrated good manners and cleanliness. Post lunch, the children continued exploring other activity zones and earned KidZania currency, which further enhanced their excitement and sense of achievement.

The entire trip was meticulously organized and conducted with utmost care and safety. The students returned to school with radiant smiles, unforgettable memories, and meaningful learning experiences. Overall, the visit to KidZania proved to be both educational and entertaining, making it a truly successful and memorable day.

The students and teachers express their heartfelt gratitude to Madam Principal for thoughtfully organizing this wonderful day trip and providing them with such a delightful learning opportunity.
