## Magic Show Class IV & V

A magic show was conducted in the school premises. The resource person Mr. Rakesh Kumar (TOI) was very skilled at his work. All the children were excited and ready for the show. Some of the tricks that he performed were exceptionally brilliant – like taking out small umbrellas; three-white coloured rings turning into three different coloured rings and then into one single multi coloured ring. Similarly, two students were called to check for a piece of cloth inside a bag. After a while only one child could see, while the other couldn't see and vice-versa The colour of water changed by covering it with a piece of cloth and like wise many other tricks were performed. The students participated with zeal and enthusiasm. The tricks performed by him kept the students mesmerised till the last minute – overall an interesting and enthralling show.
