

ST.CECILIA'S PUBLIC SCHOOL

Map Activity

Term-1

IX-X

As part of the Quiz club, various map activities were organised in TERM 1 for students of grade 9th and 10th which included activities to know more about the country INDIA.

Class 9th students interpreted Physical features of India -Himalayan mountains,Northern plains and Coastal plains.

For class 10th map activities to locate Major soil types of India, Major Dams of India ,Major Areas of Rice and Wheat and also to locate the major producers states of Sugarcane, Tea, Coffee, Rubber, Cotton and Jute.

These activities were included to improve their ability to visualize the geographical information and help students to develop their analytical skills.
