

St. Cecilia's Public School Maths Club Mathematics Exhibition (IX-X)

St. Cecilia's Public School organized Mathematics Exhibition in the school premises. Classes IX and X were involved in the same. Fifty students participated by bringing wonderful projects and models. They made projects on topics such as Number system, Algebraic Identities, Trigonometry, Mensuration, Probability, Statistics etc. Everyone was

Enamored by their bright and innovative ideas. It was praiseworthy that students explained the models themselves. It proved how well the topics were understood by them. Respected Madam Principal addressed the students at the end. Ma'am appreciated everyone's efforts. She also emphasized on students explaining their work in classrooms as well. Ma'am concluded the event by suggesting that the models and projects should be used in teaching-learning process.

The exhibition-turned out to be a fruitful event.
