

St. Cecilia's Public School
Online Deepawali Celebration
Senior Wing

"This Deepawali, let us be grateful for all we hold dear: our health, our family, our friends and the grace of God that never ends."

St. Cecilia's Public School celebrated the auspicious festival of Deepawali on 12 November 2020 through the online mode of Google meet. The pandemic could not stop the management, teachers and students from spreading the light of wellness and joy amongst all.

Deepawali celebrations commenced at 9 a.m. across all the classes. The festive spirit began with a short prayer, followed by the audio messages of Respected Madam Principal and the Eco Club Teacher In-charge wishing and urging everyone to celebrate Eco-friendly Green Diwali. Another teacher audio message was played to mark the occasion of Children's Day falling on the same day as that of Deepawali. The Class teachers cautioned all the students to be safe and to continue taking all precautions, especially during this time.

Several activities were planned for the day, thereafter. Students involved themselves in Article Writing activity on 'Traditional Vs Online Education' to mark the Education Day of India (11.11.2020). After this, movie presentations planned by the Geekoz-IT Club were shown in the classes. Students had created short movies on safety measures during festival celebration in Covid-19 times.

The last in the thread of activities was Eco Club which had planned several activities for different classes like Candle decoration, banner making, slogan writing, poster making, etc. Students participated enthusiastically and showcased their talent in creating wonderful pieces of art using/re-using eco-friendly materials available at home.

The Coordinator's visit to each and every class reminded students to celebrate Green Diwali to mark the festive prosperity and happiness.

May the positive light of diyas and candles drive away the evil of Covid-19 pandemic from our lives.
