

St. Cecilia's Public School Orientation Programme Class – I

“Education is the passport to the future, for tomorrow belongs to those who prepare for it today”.

Keeping this in mind an orientation programme was conducted for the parents of class I. The aim was to give the parents an opportunity to experience and understand the world their child would explore in school, also a time to become aware of the working pattern and varied activities that are done in school. It is seen that when parents are involved in the education of their children in positive ways, the children maximize on their untapped potentials and become more regular and demonstrate positive attitude and behavior.

At St. Cecilia's Public School we completely understand the importance of child's growth and the role of parents along with the teachers to make the child excel in life. The spokesperson was Mrs. Meena Rawat who briefed the parents about the school curriculum, infrastructure, academics, extra-curricular activities and the smart class teaching etc. Ms. Neha Vohra gave her valuable inputs regarding the child psychology. Being the school counsellor, she gave insightful information about the various learning and behavioral disorders, which was an eye-opener for the parents. On the whole it was an interactive and enlightening session.
