

St. Cecilia's Public School

Awareness is Empowering – Orientation Programmes for class Nursery, I, VI and IX for parents

St. Cecilia's Public School organized a series of Orientation programmes in the months of March and April 2023 for not only new set of parents of class Nursery but also existing parents of class-I, VI and IX to familiarize them "as partners in progress" with the curriculum, rules and regulations of the school, teaching methodologies and the co-scholastic activities.

The orientations elaborated the thought that: "A parent is a teacher at home and a teacher is a parent at school and the child is the centre of our universe." Welcoming parents to the new academic session, Headmistress of Junior Branch as well as coordinator of Primary, Middle and Senior wing spoke at length about the benefits of effective communication between parents and teachers. They laid emphasis on a strong connection with the school patrons.

The parents were briefed about the functioning of the school. They were given an overview of the various subjects and the activities undertaken in the school. The co-scholastic activities were also discussed that gave the parents an idea of the curriculum which is self directed with hands on learning activities that not only give our students a medium to fully utilize their creative talents and energies, but also help them in their all round development. Sports coaching, operational clubs and committees, workshops and sessions, educational excursions etc were also briefed to the parents.

The parent community was encouraged for their support and suggestions to provide best education and growth opportunities to the students. The school counselors shared tips on good parenting and age appropriate concerns. Moving further they also spoke in detail about different ways of nurturing a child with love and care to build a strong foundation for a glorious future.

The orientation programmes proved to be a sincere effort by the school in apprising the parents to look after the guide their children in an appropriate manner to reinforce optimum learning. The parents were grateful as well as congratulated the school for its latest infrastructural accomplishment of air conditioning. Madam Principal extended her best wishes to all for the new session 2023-24.
