'PHASING OUT SINGLE USE PLASTICS'

AN AWARENESS CAMPAIGN

ORGANISED BY ECO CLUB ON 12.10.2023

In Compliance with Circular no. F.No.DE 40 (6)/ Sc. Br./ 2023-24/112-25 dated 31.08.2023 issued by Directorate of Education : Science & TV Branch, GNCT , Delhi , Eco Club of St. Cecilia's Public School ,Vikaspuri organized an Awareness Campaign on 12.10.2023 titled 'Phasing Out Single use Plastics'.

Plastics are a huge environmental and health concern for everyone mainly owing to their non-biodegradable and highly persistent nature. The Eco warriors undertook this task of spreading awareness amongst the students for actively eliminating the use of plastics in their everyday life.

Students prepared an awareness campaign wherein with the help of videos, posters and dialogic platform students were motivated to identify plastic in their daily use and try to substitute it with other available environmental friendly options. Students pledged to spread this message far and wide from the vicinity of their homes to the wider community at large, to initiate a movement that will help in sincerely eliminating the menace of plastic from our lives.

Madam Principal, Madam Coordinators and all the teachers actively supported all the students in this cause and motivated them to be the leaders in this movement against eliminating single use plastic from our lives.
