Save Water, Save Life

There are number of ways to save water and they all start with you.
The future we steer, our water will be clear, together we will have nothing to fear.

On July 25th, Eco Club organized a competition on “SAVE WATER, SAVE LIFE” wherein students of

- Class VI participated in painting class. They used different colours to show how to preserve the 70% blue of earth.
- Class VII participated in a poetry writing competition where they brought out their artistic side, their creative side and their imaginative side. The amalgamation of these three gave result to some of the beautiful poetries.
- Class VIII participated in a slogan writing competition which also helped them develop their creative and imaginative skills.

Students drew beautiful paintings, wrote powerful slogans and created influencing poetries. They used this medium and made the best use of it. They expressed themselves and put forward their opinions, causes and resolutions regarding the scarcity of water.
