Made with PosterMyWall.com

It leads to imagination and innovation in various fields.

Present scenario leads to new ways of technology and experiments.

**SCIENTIA CLUB** of the school organized POWER POINT presentation activity for students from IX to XII classes on 28 June 2021. The topics of presentation was

**1 . INNOVATIVE IDEAS TO SAFEGUARD THE COUNTRY IN PRESENT SCENARIO**

Students participated enthusiastically, used all scientific concepts and reality of this pandemic time to explore their ideas and imagination.

The activity gave a platform to students for their creative digital learning as well as to show case their ideas. They have got an opportunity to go beyond out of box thinking process

Students live presentation through Google meet was awesome and they did it very well.

Madam Principal and Madam Coordinator motivated students to be imaginative to enhance scientific aptitude.

Overall it was a wonderful and joyful learning experience for students through virtual platform.

Students have shown their talent in their presentation. Such activities can be very useful in preparing students as digital leaders of 21<sup>st</sup> century.
