

## St. Cecilia's Public School

### Sports Day

#### Middle Wing

*"Success is not given. It's earned on the track, in the gym, and with every drop of sweat."*

The students of middle wing of our school participated in the much-awaited hurdle race on sports day in the month of April. The gleaming faces of our students exhibited the spirit of sportsmanship and determination in them.

With young hearts full of passion and eyes set on the finish line, the athletes lift over every challenge with sportsmanship and grit. They left no stone unturned to prove their potential and capability.

Cheered on by other fellow students, the participants showcased not just their physical agility but also discipline, focus and attitude. It was a true celebration of hard work excellence and enthusiasm.

We express our sincere gratitude to Madam Principal under whose guidance and support we could organize this event.

Kudos to all our winners and participants for giving their best and making the event a grand success!
