

St. Cecilia's Public School

Staging the Character

'Staging the character' was organized by St. Cecilia's Public School under the English Editorial club. It turned out to be a few activity where in students of Class XII performed in front of each other on any incident based on their English textbook chapters.

Surprisingly, there were a few repetitions. Students tried to choose unique characters and incidents so that their act stood out differently in comparison to others. Many groups had worked extremely hard on dialogue delivery. A few groups also made use of props to enhance their presentation.

In a nutshell, it was a fun-filled, enriching activity where students showed equal amounts of enthusiasm and interest to put up their best fronts.
