**Classes III-V**  
**Date- 09.05.2025**

**Parents play a crucial role in a child's development, providing guidance support and love.**

To celebrate the unconditional love and sacrifices of parents, St. Cecilia's Public School organized a joyful and heart- warming Mother's and Father's Day celebration for students of Classes 3 to 5. The purpose of the event was to encourage children to recognize the efforts of their parents and to build stronger emotional connections with them through creative and meaningful activities.

Students created beautiful, hand -decorated cards with heartfelt messages.

Some students composed short poems, acrostic poems dedicated to their mothers and fathers, a few which were read aloud during the event.

Each student presented a small handmade gift to their parents — photo frames, paper bouquet, trophy craft, handprint art — expressing their love and appreciation in a tangible form. These were simple and touching gestures expressed by the students.

The Mother's and Father's Day event was a memorable experience for students. It successfully nurtured the values of gratitude, love, and family bonding. The involvement and enthusiasm of the students were truly commendable.
